In The Know!

We are pleased to announce the promotion of Yvonne Bannon to Instructor of Psychiatry!
Congratulations!

Happy Belated Birthday Wishes to Dr. Wade Myers/December 26th and Shawn Hood/December 27th.

Happy Birthday Wishes to Dr. Jun Tan/January 5th, Ofelia Granadillo/January 7th, Dr. Danielle Sutton/January 10th and Marsha Cohen/January 11th.

On January 9, 2009, The Carter-Jenkins Center will present "Conversations with Other Women" (2005). Session and discussion will be conducted by Frances Marton MSW, Psychoanalyst of Children, Adolescents and Adults, Associate Director of The Carter-Jenkins Center, Member of Staff at the USF Department of Psychiatry.

Research Happenings!

USF Psychiatry is participating in a nationwide clinical research study for children and adolescents diagnosed with Tourette's Disorder. The study is being conducted on behalf of Boehringer-Ingelheim and seeks to evaluate the safety and efficacy of an investigational medication versus placebo for 6 weeks followed by an open-label follow-up study for participants aged 6-17 inclusive. For more information, call Colleen Killian, BA, at 974-9104. To make a referral, call 974-1404.

Lundbeck Study, Carlos Santana, M.D. (principal investigator) – USF Psychiatry Department is participating in a nationwide clinical research study being conducted to examine the neurocognitive effect of sertindole versus quetiapine in patients with schizophrenia, taking a stable dose of antipsychotic for the last 4 weeks and their physician is considering a change in medications due to suboptimal response or side effect of their current antipsychotic. For more information, call Colleen Killian, BA at 974-9104; or to make a referral, call 974-1404.

Generalized Anxiety Study (Carlos Santana, M.D. – principal investigator) now open and enrolling. This is a nationwide study of an investigational medication compared to duloxetine and placebo (4 out of 5 chance of being on an active medication). Participation would last about three months and would require eight study visits. For more information, call Maggie Stratton, BA at 813-974-8242. To make a referral, call 974-1404.
