Research Happenings!

GSK Bipolar Kids Study, Sandra Stock, M.D. (principal investigator) – The USF Department of Psychiatry Silver Child Development Center is participating in a nationwide clinical research study being conducted to evaluate LAMICTAL as an Add-on treatment for Bipolar I Disorder in Children and Adolescents, ages 10-17. For more information, call Colleen Killian, BA at 974-9104; or to make a referral, call 974-1404.

Excellent Study Opportunity!!! Schizophrenia IM Depot Abilify Study, The USF Department of Psychiatry is participating in a nationwide clinical research trial evaluating the efficacy, safety, and tolerability of Aripiprazole IM Depot as Maintenance Treatment in patients with Schizophrenia. For more information, call Colleen Killian, BA at 974-9104; or to make a referral, call 974-1404.

USF Psychiatry is participating in a nationwide clinical research study for children and adolescents diagnosed with Tourette's Disorder. The study is being conducted on behalf of Boehringer-Ingelheim and seeks to evaluate the safety and efficacy of an investigational medication versus placebo for 6 weeks followed by an open-label follow-up study for participants aged 6-17 inclusive. For more information, call Colleen Killian, BA, at 974-9104. To make a referral, call 974-1404.

Lundbeck Study, Carlos Santana, M.D. (principal investigator) – USF Psychiatry Department is participating in a nationwide clinical research study being conducted to examine the neurocognitive effect of sertindole versus quetiapine in patients with schizophrenia, taking a stable dose of antipsychotic for the last 4 weeks and their physician is considering a change in medications due to suboptimal response or side effect of their current antipsychotic. For more information, call Colleen Killian, BA at 974-9104; or to make a referral, call 974-1404.
