**In The Know!**

*Happy Birthday wishes to Ana Ortega/February 13th and Jose Valdes/February 13th.*

On February 13, 2008 from 8:00 – 10:00 a.m. a Critical Appraisal of Article on Harm discussion will be led Dr. Lynn Wecker in MDC 4054 for the Evidence-Based Medicine Course.

On February 14, 2008 from 7:00 – 9:00 p.m. The Carter-Jenkins Center will present: “Both Hands On Reading” by Susan Power Fernandez, M.Ed., Educational Psychologist specializing in Dyslexia and Learning Disabilities.

The following articles appeared in the Cambridge Textbook of Effective Treatments in Psychiatry:
- “Educational interventions for eating disorders” by Mima Simic, Pauline S. Powers and Yvonne Bannon
- “Alternative treatments for eating disorders” by Paul S. Powers, Yvonne Bannon and Adrienne J. Key.

Please join us on Tuesday, March 4th at 8:00 a.m. in the Café to meet and welcome our newest faculty members: Maria Caserta, M.D. and Barbara Lubrano, M.D.

The Scholarly Concentration in Research for medical students would like to solicit faculty members’ interest and participation. They currently have over 30 medical students signed up for this scholarly concentration and would like to link them with mentors. With your expertise, the students will learn a lot from you, and your contribution will be credited in AIMS. A retreat is going to be held on Monday, February 11, 2008 from 5:30 – 7:00 p.m. to give an overview of their program and for students and mentors to meet. If you are interested in mentoring students in this program, please contact charurut@gmail.com.

**Research Happenings!**

The USF Department of Psychiatry is seeking men and women with anorexia nervosa for an anorexia study. Volunteers must be between the ages of 18-65, be 15% below ideal body weight, fearful of gaining weight even though underweight and able to keep eight clinic appointments. Pauline Powers, M.D. is the Principal Investigator. For more information, please call 813-974-3633.

Volunteers are being sought to participate in a research study of an investigational medication being studied for Alzheimer's Disease. To be eligible for this 21-week Clinical Research Medication Trial, the patient must be 55 years of age or older, have memory loss, and be willing to comply with necessary study assessments. All study-related medications, study-related lab work, treatments and doctor visits will be provided to patients at no charge. For more information, please call (813) 974-1404.
