Research Happenings!

Attention Clinicians: A 6-week clinical research trial is being conducted to evaluate the safety and efficacy of an investigational medication in patients with Bipolar I Disorder who are currently depressed. Patients must be at least 18 years of age. All study-related procedures and medications will be provided to patients at no charge! For more information on this study, please call (813) 974-1404.

A 52-week clinical research study is being conducted to evaluate the efficacy of an investigational medication in combination with a mood stabilizer. Patients must be at least 18 years of age, be diagnosed with Bipolar I Disorder, and currently experiencing a manic or mixed episode. All study-related procedures and medications will be provided at no cost to participants. Please call (813) 974-1404 for more information.

We Need You! Please help us complete our MINI-Kid Study by referring your patients. We are in need of patients with possible diagnosis of eating disorder, alcohol and substance abuse/dependency and psychotic disorders. Study flyers with more information are in the clinic for patients. Please call the Silver Child Development Center at (813) 974-1516.
