Research Happenings!

The USF Department of Psychiatry is seeking men and women with anorexia nervosa for an anorexia study. Volunteers must be between the ages of 18-65, be 15% below ideal body weight, fearful of gaining weight even though underweight and able to keep eight clinic appointments. Pauline Powers, M.D. is the Principal Investigator. For more information, please call Barbara Oleim, R.N., Research Study Coordinator 813-974-3633, boleim@health.usf.edu.

Volunteers are being sought to participate in a research study of an investigational medication being studied for Alzheimer’s Disease. To be eligible for this 21-week Clinical Research Medication Trial, the patient must be 55 years of age or older, have memory loss, and be willing to comply with necessary study assessments. All study-related medications, study-related lab work, treatments and doctor visits will be provided to patients at no charge. For more information, please call (813) 974-1404.
