

Hinks & Elaine Shimberg
Health Sciences Library

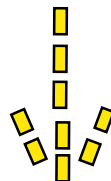

Looking for a **Full Text**
electronic journal?

Let *Luis* be your guide
with 5 easy steps...

Starting at the home page of
The Shimberg
Health Sciences Library

<http://www.hsc.usf.edu/library>

STEP 1. Your starting point.

The Shimberg Health Sciences Library home page.
<http://www.hsc.usf.edu/library>

Click on **USF Library Catalog**

By first checking the USF catalog, **WebLUI**S, you have access to Full Text electronic titles that are available to the **Shimberg Health Sciences Library** from various sources.

STEP 2. WebLUIS.

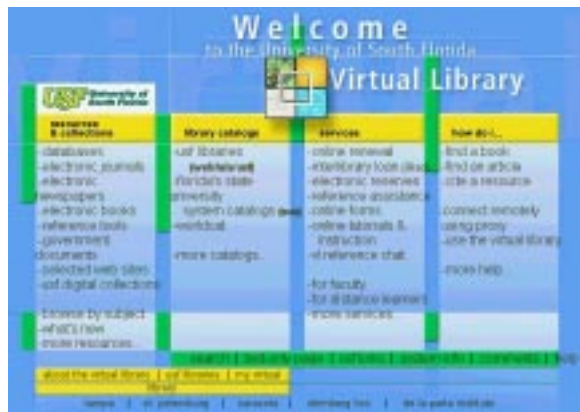

Search by journal title.

Fast Fact. Due to licensing restrictions, not all electronic journals can be added to the **Virtual Library**.

If your search is successful, click on the highlighted URL which will take you to the journal's Full Text online site.

STEP 4. The **Virtual Library**. For a journal search by title, click on the resource labeled **Electronic Journals**. You can search by title or title phrase. If you find the title here, there will be a URL directly linked to one or more Full Text databases that contain articles from the journal you want.

STEP 3. What if the title you entered is not listed in **WebLUI**S? (or has no URL) Now it's time to check the **Virtual Library**. Click on the **Virtual Library** button located at the top of the page.

Still can't find a certain title? Head back to the Shimberg Health Sciences Library
<http://www.hsc.usf.edu/library>

STEP 5. Home sweet home!

With your HSC account, you can also access journal titles through **HSC Restricted Resources**. Turn over for more info.

By following these **5** easy steps, you will have searched every database currently available.

As an **HSC** account holder, you also have access to **MD Consult**, **Ovid MEDNET**, and other **HSC Restricted Resources**. **MD Consult** provides access to over 50 journals. **Ovid MEDNET** offers Full Text access to over 115 journals. **HSC Restricted Resources** also provides the IDs and passwords necessary to obtain full text access to restricted journals. These are titles where the publishers have granted legal electronic access to account holders of this library only.

For your convenience, the HSC Library has copies of the list of Full-Text journals available through these databases. You can access the list online from our home page: <http://www.hsc.usf.edu/library>

Click on the drop down box that says Books/Journals, then click on Full Text Online Journals - HSC for a handout in pdf format.

Copies are also available from the Reference Office.

Proxy Help

When you are connected using USF as your Internet Resource Provider (ISP), your IP address automatically allows access to USF library materials. However, if you prefer to connect to USF through an outside server, such as AOL or Roadrunner, you will need to set up a proxy account. Instructions for Proxy Help are available on our home page at:
